DSL Filters

Put one In-Front of Every Phone, except the DSL Modem or Router.

Wall Jack

1. Remove Wall Phone
2. Hang this Jack (Hangs just like a wall phone)
3. Re-Hang Wall Phone on Filter

\$13.95
3 @ \$12.50 ea.
#MI S6P

In-Line

DSL is sometimes delivered over a regular working phone line! Since voice or modems only use from about 300 to 3000 hz, DSL uses the remaining bandwidth. These devices filter out everything over 4000 hz, so you don't hear the hiss and noise of the data.

- All phones plugged into this filter will be filtered
- Simply plug in-series with a modular phone, answering machine, modem etc.

\$6.99
3 @ \$6.59 ea.
#MI S6Q

RINGER & PHONE

With 18" Mod Cord and Mod Jack **\$7.95** #WAL5Q
