Tired of Excuses?

"I didn't have a ladder"
or
"I couldn't move the desk"
or
"I didn't have a drop light"

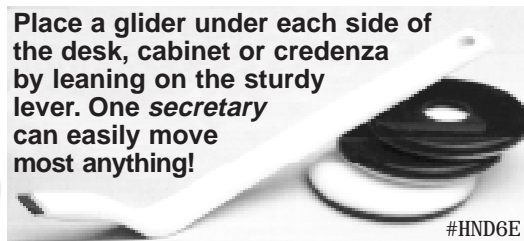

THESE ARE NOT THE PUNY LITTLE THINGS WITH DOUBLE STICK TAPE YOU SEE IN STORES!

These excuses don't impress the customer, and don't make you any money. Chances are you'll just be busier the next day. Everybody can carry a Little Giant, a Flashlight / Headlight and a set of Global Gliders, and then the only excuse is "I didn't feel like it."

GLOBAL GLIDER™ Stop worrying about returns falling off when moving desks!

Each Glider Disk is 1/2 by 4 inches, with a Sticky Rubber Top, and Teflon Bottom.

Place a glider under each side of the desk, cabinet or credenza by leaning on the sturdy lever. One secretary can easily move most anything!
