

Want to get a \$5 Credit?

Someone's Got to Save 'em!

Special Thanks to Ken Moore from Telecommunications Systems in Poughkeepsie, NY for a **BIG** box of GREAT brochures!

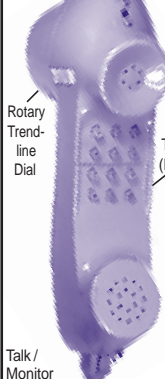

Send me an old brochure or two for an older phone system. You know, they're laying there buried in your files somewhere... **Turn them into \$5!**

This is a green Northern Telecom Butt-set, made from the old Contempra (Canadian version of the Trimline) phone. There may be some Touch Tones versions still in use today!

Sends Tone and has Amplified Monitor!

Talk / Monitor Switch

The Only TRUE Tone and Rotary Butt-Set... It had BOTH Dials!

Big and Heavy, made by CMC. I loved this Butt-Set. My Boss at the time, Bob Kramer at Kraden, called it my "Club."

This is dial with a had a an old non-Butt-set, dial that belt loop!

Butt-Sets used to all be metal!

The Dial is much newer than the Butt-set.

Whozz Calling 4 or 8 (turn any of these On/Off):

- Detailed real time data for On/Off Hook, Flash & Ring Signal... **GREAT** for Voice Mail & IVR diagnostics!
- See Inbound Caller ID (with name if delivered)
- See the time, date and duration of all calls... **IN & OUT**
- See DTMF digits dialed **ON INBOUND CALLS...** use it to see the mailbox dialed **along with** the CID # on IVRs!
- See **how long** the phone rang
- See **Outbound Calls...**
- Records 25 digits (like beeper #s) including * and #
- Get info before, after, or before **and** after each call
- **Block or Allow** up to 50 phone #s from ringing through
