

# Eliminate 25% of Your Service Calls!

**1**  
You Put a Modular NI Jack in for Each Phone Line

**2**  
When there's a problem on the line... Your Customer Unplugs the NI

**3**  
Your Customer Plugs the Power into the NI to Check the Line

## NI Jack

**Special Purchase!**

**89¢**  
each  
in 100 qty.

20 @ \$1.29 ea.  
1 @ \$1.39 ea.  
#CLN6H

## TWO PIECE HOSPITAL PHONE

### Only \$11.95

5 @ \$10.95 #CLN6G

Great for Power Failure Phone!

- Ringer ON / OFF Switch
- Tone / Pulse • Amplified HS
- Last Number Redial
- Desk or Wall • Lighted Dial

Make sure the phone isn't stolen by putting one of your big company stickers on it!

**NOTE:** For Ground Start, put in a little pushbutton switch that connects ground to the ring side of the phone.

Each NI Jack comes with a Standard 1" Deep Surface Mount Box!

Can you really afford NOT to install these?

  - 2 - 25 Pair Jack Panels #SER5I
  - 25 - Patch Cables numbered 1 to 25 #SER5K
- You need to provide a cheap wall phone.

### Only \$149.95

**PURCHASED SEPARATELY:**

- 25 Pair Jack Panel with Male Amp #SER5I: \$49.95
- 25 Pair Jack Panel with Male & Female Amps #SER5J: \$59.95
- 50 Pair Jack Panel (25 RJ-14's) with 2 Male Amps #SER5L: \$69.95

**ARE YOU LETTING THE PHONE COMPANY DO THEIR WORK FOR THEM?**

99% of CO Line problems are BAD Phone Company Lines, but **YOU'VE** got to go out to verify it for them! Spend a couple of bucks and a little time when you install a system, and **kiss those service calls good-bye!** It only takes the customer a minute to check the line at these easy to use NI Jacks. Most customers have no problem checking the lines themselves, but if they do... O.K... Just go do the service call. You'll still save big on 9 out of 10 of your customers!

If the customer finds a problem with the line, **YOU** should call it in for them! The jerks at the Phone Company are going to tell them "We're going to charge you \$150, take your first born and repossess your car if the problem is with your wiring." Just about anybody would get stressed out with that, so call 611 for them.

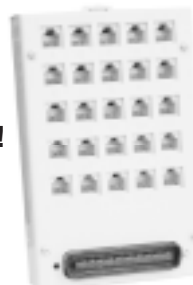

I've installed modular jacks and a cheap wall phone on every **loop start** installation I've done since 1986. How much time and money do you think I've saved? How many more repairmen do you think we would have needed? How many of those service calls would have come in at the worst possible time (like after lightning storms)? Think about it on that next "dead line" call!

## 25 Pair Jack Panels

**Great for:** Demos, Cubicles, Call Centers, Temporary Installations, Monitoring Lines and Lots More!

- 25 Pair Jack Panel with Male Amp #SER5I: \$49.95
- 25 Pair Jack Panel with Male & Female Amps #SER5J: \$59.95
- 50 Pair Jack Panel (25 RJ-14's) with 2 Male Amps #SER5L: \$69.95

**These are really handy to have in your truck!**

**Tac-Test Adapter**

#T006P

Put a Tac-Test on the phone at the Frame to select the line you need to test, on the 66 Block...

**Only \$3.99**
