

There is no faster way to run wire in fairly open drop ceilings!

It Looks Like a Joke, But 6 Guys Couldn't Keep Up With You!

\$44.95 Super Value

Replacement Sling: \$7.95

FISH REEL w/ 3/8 oz. WEIGHT attached to 125' of 10 lb. LINE

Just Push the Casting Button & Shoot It Out... Tie the Wire On & Reel It In!

SLING-A-LINE™

LOOK: I dropped off a new guy with the wire and jacks, and had a Sling-A-Line in one of the boxes. I left to get a part... and he was almost done with the wiring when I got back! We knocked it out in 1/2 THE TIME! (Works best in pretty open ceilings!)

Don't be fooled by imitations!

These cases have the original zippered pockets. Copies with Velcro pockets are just that - COPIES - and are *much less sturdy!* These are the originals. Before the breakup, Bell started making these cases out of a rubbery plastic stuff, rather than the special fiber which was more expensive. That's the way our REGULAR cases are made, on *Sale* for \$109.95.

I've bugged the manufacturer to make me some with the original fiber material, and he finally made me a few. While they last, you can get them for \$159.95 each - made of the original fiber material.

For those of you looking for a high tech case, keep looking! These are primitive by today's standards, but unbelievably sturdy with steel on each corner.

Regular: \$109.95 • Original Fiber: \$159.95
