The Story of the Birth of the Telephone

#CI D1F

1 Hour Video

Great Gift Idea!

\$19.95

Narrated by Morley Safer, using never before seen footage, **The Telephone** details the invention of the phone by Alexander Graham Bell. It tells the story of how his patent was challenged, how he almost lost control of his invention, how the Independents were beaten into submission by Bell.

The History of the beginning of the phone business is chronicled until the first coast-to-coast call in 1915.
