## The Story of the Last Manual (Magneto) Exchange in the Country

191 Page Book: Everything Happened Around The Switchboard

*Really fun reading!* I sure wouldn't want to do what Eldon Hathaway and his family did for over 30 years to keep the Bryant Pond Telephone Co. operating. Setting poles, running open wire in the dead of winter, fixing and replacing old crank phones, repairing and replacing finicky old switchboards... Makes me glad I've worked as a phone man in the city! We don't know how good we've got it, but you can sure find out here.

**\$19.95**

### The Story of the Birth of the Telephone

1 hr. video details the invention of the phone by Bell. It tells the story of how his patent was challenged, how he almost lost control of his invention, how the Independents were beaten into submission.

The phone business is chronicled until the first coast-to-coast call in 1915.
