### TRAINING VIDEO

**SALE!**  
**\$130 OFF**  
Reg. \$259.95

Start by actually building a PC with all of the options including CD-ROM, Sound Card and Modem. Once you see it done by Mike Sandman, you'll feel better and look smarter working on your own, or your customer's computers.

Learn how to set up the CMOS, install new Hard Drives, additional Serial Ports, and set up Batch Files. Connect Coax and Twisted Pair networks, and an Ethernet Hub. Find out how to get updated drivers for every kind of hardware. See Windows 95 Plug and Play, and lots more!

Use Diagnostic Software to see what's in the computer before you start messing with it, and then to diagnose bad components.

This 8 Hour, 3 Tape Set gives you a complete background in PC Hardware, including showing you older cards and parts. Includes "How to Use The Internet"

Who else is going to spend hours with you, showing you this stuff? You need to know it in order to stay in the phone business, it's changing around us.

**Sale Price: \$129.95!**

## PC DUAL FAN CARD

Full Size Card with 2 Fans, running in opposite directions. This card cools the CPU (even Pentium), Hard Drives and Expansion Cards. Are you going to trust your system to the Power Supply Fan?

Heat Kills! **\$27.95**
