Pull Line

You've been there! A conduit with only a wire or two that makes so many turns that you can't get a fish through. With wires in the pipe, you can't blow a string through, either.

If everybody carried a bucket of Poly Line with them, you wouldn't be in that position. And Poly Line's A LOT cheaper than using 4 pair as a pull!

This line can be pulled in manually, or blown in. Whatever you do... DON'T JUST FISH ONE CABLE THROUGH THAT CONDUIT WITHOUT A PULL LINE!
